Want to increase productivity and get better results?

TDS Software Training is the answer.

Find out at TDS Software Training

Whether you're a new or long-time user of TDS surveying software, you'll get the most out of its capabilities when you attend a TDS software training workshop.

Training workshops include:

- Survey Pro 4.0 for Ranger and Recon (2-day)
- Survey Pro GPS for Ranger and Recon (1-day)
- ForeSight COGO & Drafting (2-day)

2006 TDS Training Workshops

October 24-27	Orlando
December 5-8	Seattle

For workshop curriculum, fees and a registration form, visit www.tdsway.com/workshops or call 541-753-9322.

Compute the Curve Parts

For the accompanying figure, compute the curve data for the circular curve tangent to all three lines.

For the solution to this problem please visit our website at: www.TheAmericanSurveyor.com. Good luck!
