

Test Yourself

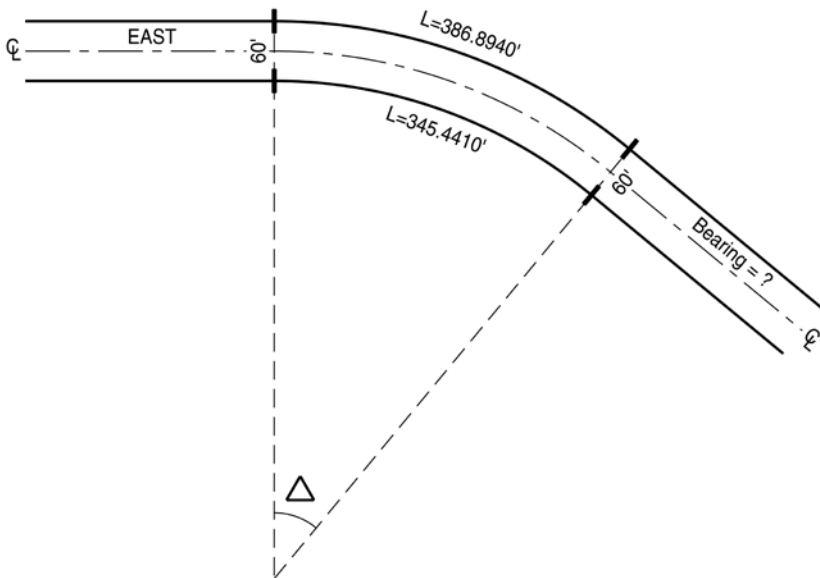

By **Richard L. Elgin, PhD, LS, PE**

Dr. Richard Elgin is President of Elgin Surveying & Engineering in Rolla, Missouri. He serves as Adjunct Professor of Surveying at the University of Missouri-Rolla (UMR), and is a principal in the firm of Elgin, Knowles & Senne, Inc.

Compute the Tangent Bearing

For the situation shown below, compute the bearing needed.
For the solution to this problem please visit our website at:
www.TheAmericanSurveyor.com. Good luck! 

Want to increase productivity and get better results?

TDS Software Training is the answer.

Find out at TDS Software Training

Whether you're a new or long-time user of TDS surveying software, you'll get the most out of its capabilities when you attend a TDS software training workshop.

Training workshops include:

- Survey Pro 4.0 for Ranger and Recon (2-day)
- Survey Pro GPS for Ranger and Recon (1-day)
- ForeSight COGO & Drafting (2-day)
